The conditions of this case are peculiar and the incidence of charge of leave allowances has to be settled with reference to its special circumstances and not any rule in the Service Regulations. This officer belonged to the University, ~~but~~ and he is not reverting to service under that Body. Charging his leave allowance to the University can be defended only on the ground that a part of the leave, which he has now taken, was earned while he was ~~on~~ in the

employ of the University. Such rule of proportions is not generally followed in respect of departments of Government and for this purpose, the University has to be treated as a department of Government. As he is not reverting to the University, the latter is certain to raise some objection to bearing the charge of the arrangement is proposed. As the department to which he is posted on his return from leave -- K.R.S.Works -- has not received any benefit of his services, it would hardly be right to charge that department with leave allowances. The only alternative left is to require the Public Works Department to bear the charge.

2. The leave was sanctioned as Principal, College of Engineering, vide Notification No.1638 dated the 13th November 1923 and not as Officiating Chief Engineer, Roads and Buildings. This office is not aware of his reverting to the Public Works Department. The charges are not debitable therefore to the Public Works Department. There is also no provision in the Budget. The University has therefore to bear the charges.
